

## **Zest Dental Solutions Launches Fully Guided Surgical Kit for Full-Arch Solutions**

*Intuitive surgical kit streamlines full-arch and overdenture procedures*

Carlsbad, CA – (February 9, 2023) – Zest Dental Solutions, the only manufacturer of the Zest LOCATOR® Family of Abutment Systems, including the LOCATOR Implant System, and provider of clinician-trusted dental materials and small equipment, announces the release of a comprehensive Guided Surgical Kit and protocol. The intuitive kit is designed to work exclusively with the tried-and-true LOCATOR Implant System, now delivering optimum versatility with both implant-supported FIXED full-arch and implant-retained overdenture solutions.

The Guided Surgical Kit is built for performance, efficiency, precision, and peace of mind, giving clinicians the tools they need to drill confidently and exceed patient expectations when using the LOCATOR Implant System. LOCATOR Implants are now approved for both FIXED and removable treatment plans with the recent launch of LOCATOR FIXED™.

This all-in-one kit features a modern keyless design, thereby maximizing efficiency, and includes the necessary instruments to support multiple surgical access options. In addition, a single guide sleeve is used for straightforward surgical guide creation and workflow.

Efficiency and treatment flexibility are vastly improved with three total drill lengths per size, which are supported by a color-coded, easy-to-navigate drill protocol. All of this in a compact, well organized setup helps to instill confidence and deliver an exceptional surgical experience.

“We created this new kit with the clinician in mind,” said Lindsay Huddle, Sr. Product Manager, Zest Dental Solutions. “Design simplicity, combined with an easy-to-follow, color-coded drill protocol and a compact footprint make this kit a must-have for the operator. And, versatility is key as it works wonderfully when placing LOCATOR Implants for use with both our LOCATOR FIXED or removable treatment plans.”

To learn more about how LOCATOR Guided Surgical Kit can help you exceed patient expectations and grow your practice, call 800-262-2310 or visit [www.zestdent.com](http://www.zestdent.com).
